BAY

A Bay is an angular, multi-panel window, usually made up of a large center fixed unit and two flanking units, projecting out from the wall of the home. The three-window unit usually projects at 9, 15, 30, or 45 degree angles from the wall.

FEATURES

DESIGN & SERIES SPECIFIC FEATURES
 Bay windows can include Double Hung, Picture, or Casement, and will include respective features found with those window types and series.

SILL EXTENSION

HEAD & SEAT BOARD

CONSTRUCTION

STEEL ROD & CABLE SUPPORT SYSTEM
 A threaded steel rod and cable support system work behind the scenes to maximize stability and strength throughout the life of your unit.*

- Choose your material:
- 1 BIRCH PLYWOOD** (included in price)
 - 2 RED OAK**
 - 3 SOLID VINYL**

Due to the effects of heat, light, age and the printing process, samples shown here may vary slightly in color or sheen from the actual materials.
 *Structural knee braces and/or NBP cable support systems are required for installation of windows projecting six (6) or more inches beyond the outside wall consistent with installation instructions. Failure to utilize structural knee braces and/or NBP cable support systems where required will void this Warranty. A pent roof/single slope surface is required above all bay/bow installations.

VENTANA GARDEN

Offering a unique solution when extra space or natural light comes at a premium, the Ventana Garden window will not disappoint. Creating an immersed viewing area, the Garden window achieves what no other window style can by increasing the space inside your home. Bring the world one step closer into your home.

100% VIRGIN VINYL

Fully welded, rigid PVC vinyl frame will not chip, rot or peel and will never need to be painted.

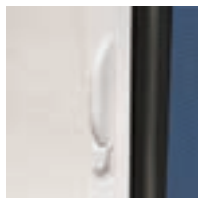

LOW-E GLASS

Double-pane Low-E glass on Garden units help achieve an AAMA certified DP50 (R50) rating for units under 60.5"x60.5".

HEAVY-DUTY LOCK HANDLES

With one simple, smooth lever action, our patented heavy-duty lock makes for easy operation. Made from die cast zinc.

FLEXSCREEN™

The high performance spring steel frame that is captured in the screen track can be easily removed from inside the home.

HEAVY-DUTY HANDLES & CRANKS

Folding down into the operator when not in use, the handle/crank makes for easy one-hand operation.

ADJUSTABLE SHELF

One or more adjustable glass shelves with polished edges, brackets and standards.

BULB SEAL

Added protection from water and air infiltration.

HARDWARE

PERFORMANCE

Continuous commitment to environmental conservation and energy efficiency are key ingredients in our product offering. We work toward this goal by partnering with Energy Star and offering packages that increase the energy efficiency and performance of all our products. Environmental awareness is at the forefront of our work from design to the innovative creation of manufacturing practices which are aligned with our Core Values. For full NFRC information pertaining to products within this series and specific to your geographic location please visit NBPwindows.com/learn/energy-efficiency

"ENERGY STAR® is the government-backed symbol for energy efficiency, providing simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions." energystar.gov

"The National Fenestration Rating Council is a non-profit organization that establishes objective window, door, and skylight energy performance ratings to help you compare products and make informed purchase decisions." nfr.org

ADDITIONAL

BLINDS BETWEEN GLASS WITH LOW-E GLASS

Blinds are installed and enclosed between two panes of glass, with slide handles allowing easy raise/draw/tilt operation. This design keeps your blinds clean and protected.

CUSTOM SIZING

Custom sizing is available in 1/4" intervals for custom fitting of your opening.

STAINLESS COASTAL HARDWARE PACKAGE

Replace door hardware (mortise lock, keeper, door rollers, screen wheels) to better withstand salt water weather conditions.

FACTORY MULLING

The sliding glass door and transom and/or sidelite can be chosen to be factory mullered together for added strength and customization.

IMPACT CERTIFICATION

Produce your DP50 door with impact certification, at a maximum size of 96"x96".

SINCE 1975.
